

COMPANY CV – INTERNATIONAL & FESTIVALS

INTERNATIONAL CAMPAIGNS / JUNKETS / TOURS (selected)

Below we list the key elements of the international campaigns we have handled, but our work often also involves working closely with the local distributors and the film-makers and their representatives to ensure that all publicity opportunities are maximised. We have set up face-to-face and telephone interviews for actors and film-makers, working around their schedules to ensure that the key territories in particular are given as much access as possible, highlighting syndication opportunities, supplying information on special photography, incorporating international press into UK schedules that we are running, and looking at creative ways of scheduling press.
